HARRIET MUMBUA KYALO
Nairobi, Kenya · +254 723 112 295 · harrietkyalo22@gmail.com
LinkedIn · Portfolio

Early-career IT professional with a Bachelor of Science in Computer Science, awarded Second Class Honours, Upper Division. Experience in IT support, systems administration, user access management and information management gained through industrial attachments at the Council of Legal Education and the Kenya National Bureau of Statistics. Practical skills in system configuration, troubleshooting, data backup and migration, and information security, complemented by cybersecurity training and technical projects. Analytical and detail-oriented, with strong problem-solving skills and an interest in using technology to support reliable and secure organisational operations.

SKILLS

Technical Skills

- **IT Support & Troubleshooting:** End-user support, hardware and software troubleshooting, Windows troubleshooting, connectivity troubleshooting, technical issue resolution.
- **Systems Administration:** Windows, Windows Server, Active Directory, Group Policy (GPO), user and group administration, domain configuration, VMware.
- **Networking & Infrastructure:** TCP/IP, IP addressing, subnetting, VLANs, pfSense firewall, DNS, RADIUS and Network Policy Server (NPS).
- **IT Security & Access Management:** User access management, access control, least privilege, security event logging, data integrity and confidentiality.
- **IT Operations & Information Management:** Software installation and updates, system maintenance, data backup and migration, digital records management, DSpace.

Professional Skills: Analytical thinking, problem-solving, attention to detail, technical documentation, communication, presentation, teamwork, adaptability and time management.

PROFESSIONAL EXPERIENCE

Industrial Attachment - Information and Communication Technology (ICT)
Council of Legal Education · May 2025 - July 2025

- Provided technical support to staff, diagnosing and resolving hardware, software and connectivity issues.
- Supported Windows Server and user administration activities, including account provisioning, user and group management, and domain configuration under supervision.
- Participated in systems and network infrastructure activities involving VMware, pfSense, VLANs and DNS, gaining practical experience in configuration and troubleshooting.
- Gained practical exposure to security event logging and RADIUS authentication using Network Policy Server (NPS) and Active Directory.
- Collaborated with the Records Department to digitise and organise over 1,000 institutional records in DSpace, supporting accurate classification, structured storage and efficient retrieval.

Industrial Attachment - Corporate Service Directorate, ICT Division
Kenya National Bureau of Statistics (KNBS) · July 2024 - September 2024

- Supported maintenance and troubleshooting of over 50 computer systems, addressing hardware, software and system issues.
- Assisted with laptop and desktop replacements, backing up user data, transferring files, configuring replacement devices and verifying successful data migration.
- Responded to IT support requests within defined service timelines and supported routine maintenance and ICT system upgrades.
- Assisted with processing and verification of over 1,000 institutional records, maintaining accuracy, data integrity and confidentiality.
- Participated in a 20-day Monthly Survey of Industrial Production (MSIP) covering 55 industries, contributing to a 98% response rate as part of a 10-member team.

EDUCATION

THE CATHOLIC UNIVERSITY OF EASTERN AFRICA
Bachelor of Science in Computer Science · October 2026 · Second Class Honours, Upper Division

Relevant Coursework: Introduction to Systems Administration, Operating Systems, Computer Networks, Data Communications, Cloud Computing Essentials, Information Systems Security, Information Systems Management, Information Systems Audit.

CERTIFICATIONS & PROFESSIONAL TRAINING

(ISC)²: Certified in Cybersecurity (CC) · Verify credential
Cisco Networking Academy: Cybersecurity Defense Analyst Career Path (SOC Analyst – Splunk) · Verify credential
IBM SkillsBuild: Cybersecurity Fundamentals · Verify credential
Microsoft AI Skills Fest 2026 · Verify credential
AFRALTI: Training in Cyber Security, Blockchain, Data Science, Cloud Computing, Artificial Intelligence and Professional Skills.

PROJECTS

GRC Assessment – Pediatric Clinic Appointment Scheduling System (PCASS)
Independent Project · Ongoing · October 2026 – Present

- Developing a risk register and mapping controls to NIST CSF 2.0, ISO/IEC 27001:2022 and Kenya's Data Protection Act, 2019.
- Preparing audit test sheets, a findings register and an executive summary.

Phishing Email Investigation & Incident Triage · September 2026
Independent Project · Simulated Security Investigation

- Investigated a simulated phishing email through header analysis, sender indicators and SPF, DKIM and DMARC authentication results.
- Used MXToolbox, VirusTotal and URLScan.io to examine suspicious indicators and documented the evidence and conclusions in an incident report.

Enterprise Networking Lab · Council of Legal Education (CLE) · June 2025
Completed During ICT Attachment

- Configured Windows security event logging and RADIUS authentication using Network Policy Server (NPS) and Active Directory to support user monitoring and access control.
- Deployed and tested a FreeBSD DNS server, integrated Windows clients, and troubleshot connectivity and name-resolution issues.

pfSense Firewall and VLAN Configuration · Council of Legal Education (CLE) · July 2025
Completed During ICT Attachment

- Installed and configured pfSense in VMware ESXi and created five VLANs to segment network services.
- Implemented least-privilege firewall rules, including isolation of guest Wi-Fi and CCTV traffic.
- Tested network connectivity and access controls to verify the configuration.
